

You Don't Want a Cheap Inspection!

You don't want a cheap inspection. A cheap inspection may be the most expensive thing you'll ever buy. In fact, it may cost you thousands of dollars down the road due to missed or overlooked defects by an inspector rushing to get to his or her next hundred-dollar inspection! Cheap home inspectors often know less and do less, which is one reason why they are cheap. Schedule your Florida Property Inspections Home Inspection today!

Our Certified Home Inspectors will spend at least three to five hours thoroughly evaluating all aspects of the property you are purchasing, from the roof to the basement and all areas in between. We want you to come along with us during the course of the home inspection. If you are new to the home buying process, it is very important that you are present at the inspection from beginning to end. We will not only inspect the house you are buying, but we will share with you what needs to be maintained or repaired, and why. We know your schedule is very busy, so we work hard to accommodate you! Because not everyone can attend the inspection during the day or week, so we offer weekend inspections.

Please know that our weekend schedule is very limited, and on a first-come, first-served basis. So, please call now (954) 445-6997 to let us know as soon as possible if you need a weekend inspection. We will do our best to accommodate you! Schedule your Home Inspection Today!

The Company that offers the cheapest price is NOT the company you should hire:

The company that offers the cheapest price is generally showing you a multitude of things; 1) they are new or part-time, 2) they really do not know their costs and they will not be in business very long, and 3) they are rushing to get to the next inspection because they are time limited by volume, not a quality inspection or value. If you want a thorough Home Inspection of what most likely will be the largest purchase of your life, you will want an experienced Home Inspector on your side. Hiring a Home Inspection company that has been performing home inspections for years and understands that they are working for you and no one else, is critical. Making sure that you, the buyer, understand all of the conditions of your new property is our first priority.

- *Home inspectors that charge less, know less, do less, could care less, and therefore inspect less. They typically do not have the concern, knowledge, technology and tools that are necessary to complete a thorough inspection. Additionally, they usually do not carry the proper industry related insurances.*
- *Florida Property Inspections documents and photographs all findings at the very moment we are observing the conditions. This eliminates errors and omissions. We always provide an on-site review of our findings with you and make sure that you understand all aspects of the property. The final report, which includes photos and summaries, is emailed to you as a PDF file within 24 hours of the inspection.*
